## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 3-5, 7, 9-11 and 17-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Crammond (US Patent 5,485,873) or Bielagus et al (US Patent 5,937,923) or Swartwood et al (US Patent 5,979,522).

The device of Crammond or Bielagus et al or Swartwood reads on the elements of the claimed invention including a knife (60, 36 or 12, respectively), a base (58, 34 or 22, respectively), a wear shoe (68, 42 or 16, respectively), an upper clamping (66, 76 or 14, respectively), at least one bolt (70--fig. 7, 78 or 40, respectively). The Examiner takes the position that the gap is greater than the thickness of the knife and the angle is about 5 degrees.

Claims 1, 3-5, 7, 9-11 and 17-28 are rejected under 35 U.S.C. 102(e) as being anticipated by Loth (US Patent 6,561,885).

Art Unit: 3725

The device of Loth reads on the elements of the claimed invention including a knife (1), a base (1.2), a wear shoe (1.6), an upper clamping (1.3), at least one bolt (4.1). The Examiner takes the position that the gap is greater than the thickness of the knife and the angle is about 5 degrees.

### ***Response to Arguments***

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
